CITY COUNCIL GRINDS OUT LOT OF BUSINESS

Purchases \$125,000 State Highway Bonds at Discount With Harbor Money—Will Now Receive Interest on Idle Funds—Engineer Wants Computing Machine and Asphalt Kettle—Sanitary Inspector Gets Leave of Absence—Picton to Introduce New Ordinance to Compel Use of Iron Trolley Poles.

The city council held its regular weekly meeting last evening with all members present. Mayor O. R. Ludwig presided. The minutes of the previous meeting were read and approved.

City Buys Bonds

E. H. Rollins Bonds offered the city last evening \$175,000 of state highway bonds at a discount. The offer looked good to the city councilmen and the board authorized the purchase of \$125,000 of the bonds for

\$122,200 and accrued interest. The bonds pay four per cent interest and at the rate the bonds were purchased the city will receive about 4 1/2 per cent. The harbor money now on deposit by the city in different banks is bringing only 2 per cent interest. The purchase of the bonds by the city is considered a good move.

Assessment District Outlined

The city engineer submitted a tentative outline of an assessment district to be formed for the purpose of providing the necessary \$9,000 needed for the steel viaduct over Seventh street on the main line of the Santa Fe railroad. The district is bounded by Tenth street, Barrett and Ashland avenues, portions of the West Richmond tract and the Andrade Gularis tract. The cost will be about \$2.50 per lot in the district.

Want Computing Machine

The city engineer has requested the council to authorize the purchase of a computing machine.

WIELDS CHAIR IN IMAGINARY FIGHT WITH BANDITS

The case of Charles Adams, who had H. Kelly arrested on a charge of battery came up before Police Judge Lindsay today, but on account of several witnesses not being present was laid over until 10 o'clock Friday morning.

Kelly stated that he was asleep in a chair at the rear of the Palm saloon, corner of Richmond and Washington avenues when he thought he was being attacked by bandits. As a result of his fight with the imaginary foe Adams is now carrying around a black eye and several cuts on the face.

SAILOR STARTS ON CRUISE—ARRESTED

A sailor giving his name as Sven Knuckling, on shore leave from the Standard Oil steamer Maverick, was arrested at a late hour last evening by Officer Phillips on a charge of disturbing the peace.

Knuckling was steaming along Standard avenue at an 18-knot clip singing and shouting when he bumped into the night vigilante.

Three Boys Will Give Evidence at Trial

That further evidence may be made to show that the caps introduced into the dynamite trial now holding forth at Martinez, Chief of Police Arnold today took with him James McLinden, Albert Neu and Henry Neu, the three boys who were with Emeric Vidal at the time he was killed by the explosion of a dynamite cap. An attempt will

be made to show that the caps found on the alleged dynamite trial at Martinez were highly explosive.

Body of Unknown Man Found Near Stege

Bearing no marks of identification the body of an unknown man was found floating in the waters of the bay near the wharf of the Stege Cap works at a late hour today by several members of a Southern Pacific train crew.

The body, though badly decomposed, was attired in a suit bearing the name of "Lilienthal" of San Francisco, while the shoes bore the trademark of Schneider's, of

Oakland. According to Deputy Coroner Smallwood the body had been in the water at least 10 days, which would lend considerable credence to the fact that it might possibly be that of Henry Watson, who has been missing from his home in Berkeley for about that same length of time.

No marks of foul play could be found on the body on account of decomposition having set in.

Work Started on New Amusement Park

Work has been commenced on the \$10,000 Kopy Kove amusement park which is to be built along the water front from the foot of Washington avenue to the Santa Fe company's right of way. The plans submitted to the city council at its meeting last evening call for a string of bath houses along the entire waterfront besides a large dancing pavilion which is to be erected on the site of Loomis park.

A large force of carpenters have

been put to work on the various structures which will be rushed to completion so that they may be in readiness by the middle of next month.

Although no definite plans have been made it is probable that the amusement company will secure a franchise from the government for the building of a breakwater several hundred feet from the beach so that bathers may enjoy a swim in all kinds of weather.

Macdonald Avenue to Be Double Tracked

Traffic Manager Brown, of the San Francisco-Oakland Terminal company, announced last evening at the meeting of the city council that his company were about to start work on double tracking its road on Macdonald avenue from First to Twenty-third street and on to the Santa Fe company's viaduct on the Oakland branch of that road.

Councilman Picton expressed a desire that Pullman avenue be laid with another set of rails, but Traffic Manager Brown stated that the work projected was going to cost in the neighborhood of \$200,000 and his company could not see its way clear at the present time to accede to the councilman's request.

According to Mr. Brown the car tracks on Pullman avenue will be kept to the west of the thoroughfare and 22 feet of the street will not be paved at the present time, until the second track is laid, the avenue should be done now.

street railway company having entered into an agreement some time ago which will permit of this plan.

Traffic Manager Brown, when he informed the city council last evening of the intention of his company to double track Macdonald avenue, stated the work would commence within forty-eight hours.

This will be good news to the people of Richmond who have considered the bad paving between the tracks of the local street car as an eye sore and it is now said that as fast as the second track is laid on the thoroughfare the pavement will be made in uniform with the rest of the street.

At the meeting last evening Jack Holliday, representing the Progressive club of the annexed district, assailed the street car company for its slow methods and maintained that the double tracking of Pullman

CITY COUNCIL REFUSES TO TINKER WITH CHARTER

Councilmen as Individuals Are Not Against Revising Organic Law of Municipality, But Think It Would Not Be Consistent for Them to Take Initiative—Present Board Was Elected Under Law That Is Now Sought to be Picked to Pieces—Matter Comes up on Letter From H. H. Turley Requesting Board to Appoint Freeholders.

At the meeting of the city council last night that body very properly went on record as being against the idea that it is within the province of the council to take a hand in the charter tinkering proposition which is just now demanding the attention of all the male and female statesmen in the community.

Not that the councilmen as individuals are against the people revising the city charter if they see fit to do so, but they do not think it would be consistent for them to take the initiative in the matter, but desire to leave it to the people themselves. The present council was elected under the present charter and they believe it would ill become them to start a movement to tear it to pieces.

The proposition was presented to the council last night by a letter from H. H. Turley, secretary of the Sequoia Commercial club. This letter requested that the council appoint members of the various civic

clubs in the city as a board of freeholders, or something of the sort, to draft a charter, or at least try to frame up ideas of what such a document should contain by discussion or otherwise.

According to the ideas of the members the proper procedure on the part of the charter tinkers should be to start the matter by an initiative petition with sufficient

SPECIAL CAR FOR BASEBALL ENTHUSIASTS

According to the announcement made last evening by Charles F. Donnelly, local superintendent of the San Francisco-Oakland Terminal Railway company, to the Richmond baseball bugs that beginning next Sunday a baseball special will run from Washington avenue to the Oakland baseball park of the Pacific Coast league team.

A similar service was maintained last year and it is expected that the local fans will patronize the service liberally.

The car leaves Washington avenue at 9:09, arrives at Sixth street at 9:13 and at Park avenue grounds at 9:47. Stops will be made at First, Sixth, Tenth, Sixteenth, Twentieth and Twenty-third streets only after leaving Washington avenue on the west side.

OFFICER M'GOWAN AGAIN AT DESK

For the first time in many days Officer McGowan, who has been nursing a bad throat as a result of a recent operation, was again at his accustomed desk in the police station today.

During the time that "Mac" has been on the sick list his star became dull and he was obliged to get in considerable time getting the official badge bright again.

That an operation will be necessary to save the patient's life.

JENNIE FINALLY SOLD, SMITH IS HAPPY AGAIN

His! The unexpected has happened. Go on! go on! Ignatia, what is it? Why, Roundmaster Smith has at last, after nights of sleepless vigil, disposed of his goat. Yep, it's a fact, and W. Gianella of the Golden Gate hotel is the unlucky man, at the ridiculous price of \$5.

Gianella, after some deep thinking, in which he had visions of controlling the goat market of the world finally opened his heart also his purse and bought "Jennie," the devoted, domestic animal, who has proved a bugbear to Smith ever since her capture several weeks ago.

SICK MAN RUSHED TO THE HOSPITAL

"To Observations Which Ourselves We Make We Grow More Partial, for the Observer's Sake."

A MAN'S A MAN FOR A THAT

There must surely be some babies on the other side of sleep.

Some little bits of feet that dance and run,
Some little hands whose pressure shall bring
peace to eyes that weep,
Some fields where babies tumble in the sun.

An editorial writer is a sort of public educator, and as such can do much good or much harm, according to the kind of seeds he sows broadcast upon the fertile soil of the people's minds. He is supposed to be a sort of walking encyclopedia, and to spend his days at work and his nights burning the midnight oil poring over the dreams of sages part of the time and the other part delving deep into the intricacies of economic and political problems, such as the tariff, the currency law, the trust questions, foreign diplomacy and the inwardness of the canal tolls. He has to do a lot of those stunts, as people expect him to digest all that information in detail and then hand it out to them boiled down and simplified, so they can grab the gist of it at the breakfast or supper table or on the street car.

This is all a noble work, and calculated to do a lot of good, if the right kind of gospel is spread, but it gets dreadfully tiresome and full of brain-fax and heartburn, and a fellow often longs for something not so ponderous, longs to be a boy again and to get out amid nature's beauties and wonders and be natural, and just a common plug human being. Especially is this true if he be human, with heart and soul and sentiment as well as gray matter inside his cranium, and most public writers are most decidedly human if they are successful writers, for it is the heart and soul and sentiment in the writings which appeal to the hearts, the souls and the sentiments of the people, as much or more than the erudition and skillful play words.

Doubtless, reader, you will be shocked at our lack of dignity when we confess with much contrition that instead of analyzing the minds of President Wilson or Premier Asquith, feeling the pulse of the congress or digging deep between the monoco covers of Darwin, Huxley or Tyndall, nothing could please us more today than to get out with about a dozen little children and play mumblepeg, marbles, fly kites, make mud pies and "play party." The little children are fine folks, because they are full of innocence and joy, and are so happy when you do some trifling favor for them that it is a great pleasure to do it. If you don't know how much fun it is to romp and cut up with the kiddies, to run races and spin tops, and tumble around in the grass and shout and all talk at once and make lots of noise, and chase butterflies and pick wild flowers and work up an appetite for a big pan of home made cookies and doughnuts hot out of the oven, you just ought to take a day off some time and try it. It beats philosophy, physics and dogmatic research a mile.

Take it on a suburban home place, for instance. You'd be surprised how interested, and interesting, a bunch of little boys and girls are when you take them out and show them how the baby rabbits play and scamper, and how the old daddy rabbit—"Jed Thumper"—raps the note of warning when anything that looks or smells dangerous shows up, and how tickled they are to grab a handful of baby chicks and feed them bread crumbs and listen to the tinkle of their little music box voices as they scratch the chicks feed around and peep for more.

The piratical curmudgeon who edits the legal notices, eight drafts and pay checks for this purveyor of news and advertisements, and the big chimpanzee who turns the sausage-mill that grinds out marriages, deaths, births, divorces, pink teas and tango tangles poke fun at this scribe sometimes because he will get up in the middle of a dissertation on high tariff in low altitude and go out with a wee bit of an urebin and blow in a nicker for candy or an ice cream soda, but we have so many little bits of sweethearts and wee mites of chums, whose legs are no longer than rolling pins and whose smiling little faces look like the pansies in the garden, that they are just jealous, that's all.

A dog is a mighty good companion, and has

lots more sense than some people. There is a vast amount of love, friendship, fidelity and wisdom in the wag of his tail, and the look in his eyes often speaks louder than words. Beware of the man whose dog drops his tail and sneaks under the house at his coming, for he is not a good man, nor has he a good heart or a broad mind. There is no hypocrisy about the friendship of the dog. If he is your friend it makes no difference to him whether you are prince or pauper, dressed in silk or rags, he'll leave his kind and go over the world with you, starve with you, fight for you and die for you—and that's a pretty good friend to tie to.

We do not care particularly tonight whether the bull moose eats up the g. o. p. elephant or is kicked by the Democratic donkey—they are all donkeys, in a way, and there is much more heartache and cussedness in partisan politics than Christian compassion. Goshdarn the old tariff, anyhow! If the duty on steel rails and uncut diamonds is fifteen cents a ton we can't help it, and we are going out and catch a mess of fish, and lie down among the poppies and smoke a pipe, and watch the cork bob up and down on the water, and wonder why an angle worm don't have more sense than to get caught by a fisherman.

We pass the Canadian fishery problem and the Ulster home rule tangle up to those who get paid for it, and if Huerta and Villa and Carranza do devour each other before the setting of another sun we shall be sorry but shall not mourn, nor yet worry if Mrs. Pankhurst drops a brick on John Bull's favorite corn, for at the termination of these three columns of thinkographic paragrahisms we are going to hike out to Major Dan McLaughlin's cabin over in the middle of the woods on Wildcat creek, beyond Grand Canyon park, and build a big campfire, and fry a mess of fish and a big slab of bacon, and lie down by it among the flowers under the big trees until the darkness steals softly over the hills, and the twinkling stars come out one by one like golden holes punctured in the veil of night, and see if we can guess which one will be our home when the summons sounds and love and life becomes immortal.

The Californian is full of joy,
And sings his boosting tunes,
While knockers down New England way
Are mostly full of prunes.

Platonic love is a good bit like the gun we didn't know was loaded.

No one knows how the women will vote—not even the women.

Seems sort of queer that grand opera cannot be sung or baseball described in English.

About the real nicest times any of us have is when we are in bed asleep, but we don't know it.

Just because California is raising a million dollar almond crop, the Oakland Tribune opines that it is nutty.

Prohibition does not always prohibit, but it prohibits partially, at least, and that is enough to recommend it to those who believe in sobriety.

We frequently read of people with "shining countenances." There is no shining countenance that can equal that of a southern darkey after a meal of possum.

We note from many exchanges that "the political pot is boiling." And mighty little pork and cabbage and taters there is in it for the average voter.

By the way, what has come of Peruna? We never see it advertised any more, but want a few bottles to send down to Fresno to Chet. Rowell, who thinks he is running for the U. S. Senate.

The I. W. W. revolution is a great joke. There is a good deal of hard work about a revolution, and those fellows may be depended upon to fight shy of anything faintly resembling hard work.

30,000 VOICES!

And Many Are The Voices Of Richmond People

Thirty thousand voices—What a grand chorus! And that's the number of American men and women who are publicly praising Doan's Kidney Pills for relief from backache, kidney and bladder ills. They say it to friends. They tell it in the home papers. Richmond people are in this chorus. Here's a Richmond case:

Mrs. M. E. Stubblefield, 534 Ripley Ave., Richmond, Cal., says: "Two of my family have used Doan's Kidney Pills and in both cases the best of results were had. One of the family suffered from attacks of backache and often felt too sick to run down to do any housework. Doan's Kidney Pills cured this case. Recently, I gave Doan's Kidney Pills to one of my relatives who had weak kidneys and couldn't control the kidney secretions. It wasn't long before this weakness went away. I strongly recommend Doan's Kidney Pills to all sufferers from kidney complaint."

STORY OF DOG AND THE CIRCUS

This is the story of a fuzzy little dog—and it also is one of the reasons why the Sells-Floto Circus and Buffalo Bill (himself) is coming here Sunday, April 19. For had it not been for that fuzzy little dog, there might not have been a Sells-Floto Circus, and consequently there never would have been the combination with that maker of civilization, Buffalo Bill. But anyway—

It was a good many years ago that a press agent with a funny little dog approached Harry H. Tammen, one of the owners of the Denver Post. The press agent had much to say about the show he represented the Gentry Dog and Pony Show, but right at that moment Mr. Tammen wasn't interested. Instead, all his attention was for the dog. The press agent smiled.

"Like him?" he asked.
Mr. Tammen patted the dog once more on the head, watched it stand on its hind feet and wave his paw at him. He chuckled. "You bet I like him," he said. "That's just about the finest piece of dog furniture I ever saw."

The press agent waved a hand. "He's yours," same suddenly. "Now what I was about to say about the ?????"

And thus it came about that Harry H. Tammen, newspaper owner, became also the owner of a trick dog. It came about, too, in the days which followed, "Rags," curly, fuzzy hair and all, spent most of his time trailing Mr. Tammen around the newspaper buildings in Denver. And it further came about one day that Harry H. Tammen stared long at Rags, then walked into the office of his partner, Frederick G. Bonfils.

"Fred," he said, "this dog's given me ambition. I want to start a circus. What do you say? You've got a lot of money. That'll buy the elephants and I'll attend to the rest."

And the result was that the next season saw a circus, owned by F. G. Bonfils and H. H. Tamman, on the road. It was a small circus, naturally. Big ones can't grow in a day. But as the years have passed, and especially since the combination with Col. W. F. Cody, it is heralded as the "biggest circus in the world."

And really, that's what it is, for when the Sells-Floto Circus and Buffalo Bill come to this city, eleven acres of ground will be covered by the great "white tops," or tents, with a "big top" necessarily so large, in order to accommodate the many rings and arenas and stages, that the seating capacity will reach that of 14,000 persons.

And while that great canvas is stretching its yellow form over the circus lots of the country, while the herds of elephants, the forty clowns of the Sells-Floto-Buffalo Bill combination are going through their mimicry and their pantomime; while the great, glittering parade winds through the streets; while the sixty or more aerialists daily whirl about in the air, a little dog trots about the office of The Post in Denver, petted by everyone, beloved by F. G. Bonfils and worshipped by H. H. Tamman. For in that little dog, in that fuzzy form of Rags, older and less active than once he was, lies the reason for the "biggest circus in the world."

And when that circus comes to this city, there is one thing of especial significance to remember. As an honor to this city, where Buffalo Bill has many close friends, and where he is known as America's best beloved citizen, Colonel Cody will personally lead the parade at 10:30 o'clock a. m. Later, on the circus grounds—but the place for all to see him, of course, is in the parade. The admission to the great show is as low as ever, 25 cents, and seats for 14,000 persons.

HEALTH OFFICER FILES REPORT

Health Commissioner C. R. Blake, at the meeting of the city council last evening, filed his report for the month of March. The report shows that there were 31 births in Richmond during the month and 12 deaths. Under the head of "Remarks" the report says:

"We have pumped out a great many pools of standing water, also have used a good deal of oil to kill off the mosquitoes, and believe we have been fairly successful, as very few complaints are coming into the office at present about mosquitoes."

"In addition to our recommendation of last month, regarding the appointment of a Sanitary Inspector who can also now be market and meat inspector in compliance with the new market ordinance under consideration, we would like to recommend that a plumbing inspector be appointed who will be responsible for all plumbing and sewer connections that are made in this city. At present our department inspects only new plumbing; another inspects all old plumbing, which is confusing. It is necessary to get a permit from the engineer's office, then our department has to inspect the laying of the pipe and nobody is responsible for the replacing of the dirt to make the street as it was originally. My recommendation is to make one man responsible for the whole thing, then if there are any complaints we know who to go to."

Miss Caroline Bedwell, accompanied by her cousin, Miss Eva Hendricks, left yesterday for San Jose where they are to attend the state normal school.

Dr. Blake Writes On Health Subject

(Issued by Richmond Department of Health).

Time to get busy.—Now is the season of civic unattractiveness. With the passing of our winter, there comes to light in the public streets and private property, the accumulated filth and litter of the winter months.

Civic pride and more than all else, civic health, demands action NOW—not thirty days hence. The city authorities charged with the responsibility of maintaining the city streets in a cleanly, sightly and a healthful condition are now working full blast and occupants of property and owners of vacant lots must recognize their responsibilities with respect to the condition of their premises and without official prodding, they should immediately proceed to place themselves right with their city, their neighbors and themselves. There is no valid reason why unsightly conditions should be permitted to flout themselves in the public face until we would be compelled to have a so-called "clean-up week." When unclean, then is the time to clean-up.

The good citizen, the clean neighbor, will not wait for a "clean-up week." If this city can boast of many careless, dirty citizens, then a hurried clean-up campaign will be necessary but I hardly think it will be necessary for Richmond to advertise itself as being so dirty that it was compelled to have a "clean-up week."

Warning! To Arise! Man the Sweepers!

It's the early fly that should get the swat.

Every fly swatted or caught now means millions fewer to swat next summer. A pair of flies starting housekeeping now can barring accidents, have 125,000,000 descendants by September.

The most effective way to swat the fly is to do away with fly-breeding filth.

Stable manure in the neighborhood should receive your special attention, for that is the flies' favorite breeding place.

Any kind of filth in which you find maggots is fly-breeding filth—maggots turn into flies.

The secret of successful fly-swating is cleanliness.

Clean up now and cheat the flies. Also save sickness.

Dirt is disgusting, disfiguring, detestable and deadly.

The dirt-rat of a city is a big factor in determining its death-rate.

Clean up, clean out, keep clean.

Get busy at once. Richmond expects every citizen to do his duty.

Nothing more forcibly affects a city's reputation than its outward appearance—dirt and litter detract cleanliness and order attract.

If you know of any unsanitary conditions, or have any complaint to make, call the Health Office, Richmond 302, and we will give it our immediate attention. "That's Our Business."

CHAS. R. BLAKE, M. D.,
Health Commissioner.

RECALL LAW TOO LAX, SAYS THE TOCSIN

(Marin County Tocsin)

The attempt to recall Senator J. C. Owens of this district has failed. The hardship placed upon the official assailed, the inconvenience thrust upon the electors and the bitterness engendered by the fight will soon be forgotten but it is to be hoped that the lessons taught by the election will be well learned.

The election has demonstrated that the people of this county, regardless of political faith will not tolerate an abuse of the recall with its resultant waste of the taxpayers' money.

To the politician who would only see in the recall, an inexpensive short cut to political office, the election has demonstrated that his vision is at fault.

Committee to meet the Sacramento victors.

Reports Filed

The following reports of heads of departments were filed last evening and accepted: Chief of Police, city Auditor, Tax Collector, Police Judge and Health Commissioner.

Get Skating Rink Permit

Kerby J. Floyd was granted a permit to erect and maintain a skating rink on Seventh street, between Macdonald and Bismarck avenues. The rink will be erected at once.

Transfer of License Allowed

The application of W. B. Lent for a transfer of liquor license from Henry Van Courten to 219 Standard avenue was recommended favorably by the committee.

The application of Thomas J. Smith for transfer of liquor license from the Mug saloon to No. 502 Pullman avenue was allowed by the board on the recommendation of the license committee.

Bonds Approved

The bonds of V. A. Fenner, J. G. Black and W. S. McKracken, street commissioners, named for the improvement of Seaside avenue, were accepted.

Perhaps the best lesson taught by the election is the discovery of the weak places in our recall election machinery.

After a study of the situation it is apparent that the percentage of the signers for recall should be raised. It is also plain that recall petitions should not be circulated by interested parties who force many unthinking people to sign petitions they would never think of signing if they were not harassed and given time to think.

This could be remedied by recall petitions being filed with some public officer, the county clerk, for instance, whose duty it would be to give public notice of the fact and state convenient times and places where all voters would be given an opportunity to sign if they so wished. It is safe to say that if this were the law and the cause was great enough, people would go to the place where they could sign the petition. This would put a check to the orgy of perjury and forgery which now accompanies every recall election. It would also do away with unjustified recall elections for it would practically mean that when the petitions were signed the candidate was due for removal from the office.

Under the present law any disgruntled citizen can get out a recall petition against any official and by persistent work can secure enough signers to bring about an election for which the people will have to pay.

If the recallers had to pay the bill in the event the man they accused was not recalled, we would not hear so much about the recall. Surely a law, so open to misuse should be changed.

H. Nicholson and family, a former resident of this city, who has been sojourning in the state of Minnesota for some time, has returned to this city and will immediately build a residence at 19th street and Barrett avenue. Pending the completion of the building Mr. Nicholson and family will reside at the Tamulapais apartments, on Second street.

A marriage license was issued yesterday in San Francisco to Manuel Medina of this city and Miss Carolina Silva of Irvington.

COUNCIL REFUSES TO TINKER WITH THE CHARTER

(Continued from Page 1)

signatures to warrant calling an election for a board of freeholders and to this freeholders board would be delegated the task of drafting a proposed new charter. After it had been completed it would have to be ratified by the people at an election held for that purpose and then it would go before the state legislature for a final endorsement before it would become a law.

Councilman Garrard, in discussing the matter before the council last night took the position that the present Richmond charter is generally considered the best in the state by charter experts. He said that some of the minor details might be improved upon, but on the whole he coincided with the general belief that it would be difficult to secure anything that would be better. He mentioned the prevailing opinion which one hears voiced every day on the street corners that the council should be paid for its services in order to stop supposed graft. In common with all the other members of the board Mr. Garrard feels very bitter regarding these unjust accusations and said so in terms which could not in any way be misconstrued. He denounced as untrue certain published statements of a morning contemporary and branded the paper as a defamer of character and a menace to the welfare of the community.

Councilman Follett said that he was against the council having anything to do with the movement of amending the present city charter, except that it might come before the board on a petition signed by a sufficient number of qualified electors. Then only would the council act for the purpose of naming a board of freeholders. In the meantime let those who want to appoint their own committees to discuss the subject.

Mayor Ludwig said the idea of the members of the Sequoia club was not necessarily to amend the charter, but to discuss its provisions in order to come to some clear idea on what, if any, action should be taken regarding the subject. He believes it to be a very important matter and should demand the attention of our best people.

The latter from the Sequoia club was referred back to that body by a unanimous vote of the council.

NEWLYWEDS ARE TENDERED PARTY IN THE SOUTH

Charles Andrews, who returned home last evening with his bride, formerly Miss Bessie Wallen, of Lincoln, Nebraska, reports having a very delightful time while on their honeymoon. One of the features of the trip was a delightful party tendered the young couple at Bakersfield, the former home of Mr. Andrews and Miss Wallen.

Among those present at the party were several former Richmond people including Mr. and Mrs. J. H. Layerage, Mr. and Mrs. Stangland, Mr. and Mrs. H. Crabtree, Mrs. A. Miliken and Mr. and Mrs. G. Symas.

W. H. Evans, a well known business man of Paso Robles, was a visitor in Richmond several days ago, as the guest of B. B. Pierce.

J. W. Thornton, residing at 325 Tenth street, was removed from the Craven hospital to his home at a late hour today.

Gibbons Writes Paper Open Letter

O. J. Gibbons, the local exponent of Socialism, has presented the following open letter to one of our morning contemporaries for publication:

To the "Richmond Daily News":

I wish to enter my individual protest against the policy of the "News" both editorial and management, and I do so in the only way that is open to me. It is not that the "News" does not endorse Socialism. That was not expected. It is not that it refuses to print communications, even when specially requested by the 2700 club. It is not what is omitted, but what is persistently done that I complain of. No intelligent friend of Labor can read the editorials and catch the drift of them without boiling indignation. On all social and economic questions affecting Labor, your attitude is in line with Harrison, G. Otis and Charley Post, two of Labor's deadliest enemies; with the views expressed in Colorado by the paper that sanctions the shooting, flogging and torturing of workers there.

You gravely quote at length the ravings of a 19-year-old tough kid in New York as if he were an authority. You reiterate a paid lawyer's slander that "Women no longer

have any regard for law;" you try to build up a sentiment to make Good Friday a legal holiday apparently in view of the fact that Liberty has no greater foe than a union of church and state. If a corporation has a worker arrested you hold him guilty as charged from the start. A boy runs away from his job that he found intolerable and you proclaim him an escaped convict, because his employer had used legal means to punish him and his employer was Uncle Sam or the corporations.

These items are not a summary of your offenses. They merely indicate your persistent course. They harmonize with your attempt to put out the campaign editions of the "News" in a small insignificant form that would have been a damage to its reputation instead of a favorable advertisement.

If you are seeking the defeat of Labor's efforts to rise, your course is logical and that is the only apparent explanation of it.

My only motive in writing this is my anxiety that Labor's interests should have a paper that voices them. As you refuse to do so, I must ask you to cancel my subscription.

Yours as a working man,
O. J. GIBBONS.

CASH IN COUNTY VAULTS COUNTED

MARTINEZ, April 7.—County Treasurer J. Rio Baker can look the world in the eye and wink his eye at it. The county cash was counted in his vault yesterday morning by District Attorney A. B. McKenney and Chairman J. H. Trythall of the board of supervisors with a committee of grand jurors present at the time and it tallied with the account of Auditor A. N. Sullenger to a cent. The amount is \$381,100.14.

The report of County Treasurer J. Rio Baker for the quarter ending March 31st shows that the county funds on deposit in the various banks at interest have earned a neat sum during the past three months, far more than is needed to defray the expenses of the office.

The \$325,300 out at 2 per cent interest earned during the quarter \$2,099.94 to which should be added the 4 per cent interest on the \$27,000 county bonds recently bought up amount to \$270 which is saved to the county by reason of the county holding the bonds.

WARRANT OUT FOR MISSING COOK

LOCAL GIRL IS TO MARRY SOON

A marriage license was issued in San Francisco yesterday to James M. Rose, of Westwood, Lassen county, and Miss Lura Brown of Richmond. Just what date the couple says for their marriage has not as yet been announced.

EASTER PROGRAM PLANNED BY THE CALVARY CHURCH

An Easter program has been planned for Calvary Baptist church for next Sunday. The entire day will be given over to Easter rejoicings. At the regular preaching service in the morning the Sunday school will have entire charge. The program will be announced through this medium. The church choir has been practicing for weeks and it will render some of the most beautiful Easter music ever rendered in this city. At the evening services the pastor will preach his second sermon to railroad men under the caption, "Motive Power." The church choir will render two anthems at the evening service. After the sermon the ordinance of baptism will be administered. Plan to attend all the services Sunday, and so enjoy the day.

CLASS PLANNING BIG CAMPAIGN

A monster membership campaign is being arranged by the members of the Titan class of the First Presbyterian church. The committee that has been appointed to work upon the campaign are Tom Poage, Edwin Barr, Herbert and Clarence Ricks.

OPINIONS OF EXPERTS WILL BE SOUGHT

MARTINEZ, April 7.—The opinions of such men as Thos. B. Swift, H. A. Jorgensen, E. A. Harlowe, M. R. Jones and Dr. C. A. Leech are sought by County Superintendent of Schools W. H. Hanlon in regard to the overloading of the grammar school classes with studies.

Their selection has been made by Mr. Hanlon as a result of the teachers' conference held here on Saturday, when the overloading of the eighth grade classes with fourteen studies was taken up for consideration.

While no definite action was taken by the assembly the teachers present expressed themselves as being heartily in sympathy with the superintendent's plan to reduce the number of studies to six fundamentals or essentials and the balance to be made secondary and optional.

HARRY LAUDER AT OAKLAND ORPHEUM

Although Harry Lauder is in Australia he is also at the Oakland Orpheum. That may sound rather peculiar but it is the truth. At the Orpheum he appears in singing and talking pictures that are so absolutely like the real Lauder that it is quite correct to say "that Harry Lauder is at the Orpheum this week."

It is certainly a treat to see the wonderful little Scotchman go through his entire performance, with the motion pictures showing his every feature perfectly and his songs ringing out as clearly and with all the charm that is found when Lauder actually appears in the flesh on the stage.

The thousands who were unable to see Harry Lauder at his recent appearance here will have a splendid chance at a first class substitute for the actual Lauder. One can now hear "The Safest of the Family" and "She's Ma Daisy," and all of the other gems of Lauder's great collection of songs. For twenty minutes Lauder went through his performance and the crowd showed its delight by tremendous applause and all the evidence of contentment.

The new bill at the Oakland Orpheum this week is one of the strongest in months. There is a play there by Paul Armstrong called "To Save One Girl," which would be alone worth the price of admission. It is powerfully written and a powerfully acted drama.

Miss Alice Colman, a San Francisco society girl, made her debut in vaudeville and registered a pleasing success. She appeared gowned in Gypsy costume, sang a number of melodies in charming fashion. Miss Mabel Hughes at the piano was a great aid to her. Miss Colman is a great aid to her. Miss Colman is a niece of Mose Gunst, the famous politician and capitalist of San Francisco, and the fact that she is a native daughter who is thus scoring a triumph, made the occasion more pleasurable.

The "Variety Follows, Burns, Gilmore and Grady in a delightful musical comedy act called "A Campus Rehearsal" caught the fancy of the throng and scored a big hit.

Mosher, Hayes and Mosher sprinkled comedy along with clever tricks on bicycles in a fashion that was thoroughly enjoyable by the big Sunday crowds.

The Hartleys, known as novelty jumpers, were indeed an absolute novelty. They must be seen to be appreciated. Nothing like them has never appeared on the Orpheum circuit before. You will laugh until you almost cry at their weird and extraordinary antics.

From Europe has come The Blessings, who are known as modern acrobats. Miss Blessing is a remarkable athlete who excels most male gymnasts in strength, agility, beauty and grace of her performance.

Matilda and Elvira, European dancers, give a series of Spanish dances that are a delight to the eye.

SUPREME COURT DECIDES ON CITY FRANCHISES

WASHINGTON, April 7.—California's attempt by constitutional amendment to require all corporations using city streets for water or lighting purposes to procure franchises from the respective cities was declared by the Supreme Court today to be ineffectual as to water and light companies in business when the amendment was adopted in 1911.

Private water and light companies appealed to the court to stop the state by the amendment from depriving them of the several hundred million of dollars that had been invested in the business of serving municipalities. Three corporations claimed the amendment was designed to enable municipalities to drive private companies out of business by refusing franchises and then to establish municipal works.

The decision handed down in the case of the Economic Gas company of Los Angeles, turned upon rights which the corporation procured under the Constitution in 1870.

When this constitution was adopted, Justice Hughes stated today, announcing the decision, the people were convinced that the state legislature was moved by favoritism in granting water and light monopolies to individuals and corporations in the various cities, and for this reason the constitution provided that any person or corporation could use the streets of a city for water and light purposes without condition.

After the adoption of the 1911 amendment requiring the procuring of franchises from the cities, the question arose as to the right of existing water and light companies.

The question came to a sharp issue in Los Angeles, where an employee of the Economic Gas Company was arrested for digging in a street for the purpose of extending the company's mains. The city claimed that the company was limited to the streets it occupied when the 1911 amendment was adopted, and refused to grant a franchise for extensions. The company claimed it would lose money, and must go out of business if it could not make extensions.

The supreme court today held that the rights of the company were co-extensive with the duties of the company. It is said that its duty was to serve all the people, and its rights were to serve all.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before Breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a full ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will be fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—adv

GRAND JURORS MAKE INSPECTIONS

The grand jury assembled at the court house yesterday and the various committees took up the departments to which they were assigned.

The hospital and jail committee with H. W. Bott as chairman inspected the county jail and hospital. They have nothing but condemnation for both institutions.

The county department of commerce under H. C. Wetmore complimented County Tax Collector M. W. Joost upon the conditions obtaining in his office.

Mr. Wetmore favors a uniform and interlocking system of county book-keeping and its adoption will probably be made one of the special recommendations of the grand jury.

SCHOOL BOYS CHASE HOBO HORSE THIEF

CONCORD, April 7.—When boys from the Lockwood School, Oakland, pitched camp yesterday near Concord, they gave a tramp supper, bed for the night and breakfast. Then the tramp, while they were absent from camp, stole their horses and wagon, loaded on the entire camp outfit and supplies and drove away.

The boys set out in pursuit, one of them M. Pierce, securing assistance from John Carra, the young son of a Clayton farmer. Together, on horses supplied by Carra, the boys followed the wagon tracks to Brentwood, where they lost them. The boys then telephoned to this place and officers overtook the wagon and brought wagon and driver here. The man gave his name as Lesard. He said that he had deserted from the navy.

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Brand Tea, or as the German folks call it, "Hambacher Bluttee" at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a tumbler full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold. Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely reliable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Berman from joints and muscles with a small trial bottle of old St. Jacobs Oil.

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops swelling, lumbago, backache, neuralgia. Limber up! Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pain, aches and stiffness. Don't suffer! Rub rheumatism away.

EX-MARTINEZ OFFICIAL DIES

The remains have been shipped to the home of the latter where the funeral will take place.

AGITATION FOR MORE LOCAL PLAYERS ON TEAM

The talk of the fans about town which is causing several of the ancient baseball fanatics to scratch their cerebellums and ponder through the dark hours of the night is why there is so much objection because Manager Greathouse has a few outsiders on the team. Does the Oakland coast league team draw its material from Oakland? Does the Modesto Reds draw their men from Modesto? Or does any of the teams in the Trolley league draw all their players from their home towns? Certainly not, and for the

simple reason that as a general rule in baseball if you want good men you have to go to the far corners of the state of states for them.

Manager Greathouse has always when there was the slightest possibility used a local boy on the team but when half of the local players are still of the sandlot variety why then it is time to search other fields for material. At the present time the locals have a fast team and this idea of changing the lineup every time the wind blows is folly, so perish the thought.

CONSTABLE GREGORY STILL VERY ILL

The condition of Constable J. H. Gregory, who has been confined to his bed since last Friday with an attack of nervous prostration, is said to be about the same today at he

was yesterday. Mr. Gregory is not mending as fast as the physician in charge would like and there is fear of complications setting in that might cause the many friends of the sick man much anxiety.

It is said that Mr. Gregory's condition is due mainly to overwork.

DIRECTORS INCREASED YESTERDAY

At the annual meeting of the stockholders of the Oakland, Antioch & Eastern Railway, held yesterday in San Francisco, a resolution was passed increasing the membership of the board of directors from seven to nine. The names of the two new members will be announced later, when they have qualified. The directors and officers elected yesterday were as follows: Walter Arnstein, president; S. L. Naphthaly and Henry C. Breeden, vice presidents; H. A. Mitchell, secretary-treasurer; A. J. Sullivan, assistant secretary; Henry T. Scott and Burke Corbet, directors.

President Arnstein submitted a report showing the financial results of the operation of the company for the final six months of 1913. As the Sacramento train service dates only from September 3, 1913, the showing should be deemed distinctly favorable. The gross earnings during the half-year period were \$214,271.19, the operating expenses \$139,736.70 and the net operating revenue \$74,434.49. The company has \$4,500,000 first mortgage 5 per cent sinking fund bonds outstanding; but, as the road has been in the construction stage until very recently and the movement of freight over it only began on March 15, 1914, the item of bond interest is not considered in the statement. Business is reported very good for the last month, and the road is earning a handsome revenue from its through freight.

"OH, NINE, THERE'S A NEW FAD!"

"It's dressing on credit at Cherry's. Rachel started it by appearing in that lovely blue suit, and when she told us how it was only going to cost her \$19.50, and that she was paying for it BY THE WEEK—well, we all just naturally followed her lead.

"Do you know, Nina, I don't believe folks can possibly have the slightest conception of the satisfaction of trading on credit until they try it.

"Cherry's have beautiful stores. Nina. They are big and metropolitan and filled with such a myriad of pretty things to wear! Somehow it makes me feel good just to walk around and gaze and know that the styles are straight from the fashion centers of the country.

"I'll give you the addresses, and I'd advise you to run up to Cherry's soon if you want to keep up with the rest of us: 515-13th St., an exclusive ladies' store, and just across the street at 523 is their men's store (between Washington and Clay Sts.) In San Francisco they have a store at 1009 Market and one at 2400 Mission St. These stores handle both men's and women's wearables. Los Angeles store is at 626 So. Broadway." Adv.

Mooney Got Third Degree Is Testimony

MARTINEZ, April 7.—That Thos. J. Mooney and his two companions were subjected to a modification of the third degree by two private detectives when in prison at Richmond and before charges were brought against them was admitted by Sergeant R. N. Ruiz of the terminal city police while under cross examination during the trial yesterday morning before Judge J. E. Barber and a jury.

Maxwell McNutt was put forward as the spokesman of the battery for the defense and J. J. Barrett pressed forward as the gladiator for the prosecution.

After the admission of a rifle, shot gun, two revolvers and shells as exhibits in the inventory of the things found in the boat at the time the three men were arrested Ruiz was handed over to the defense for cross examination. He had testified in his direct testimony that Mooney refused to talk concerning his alleged offense when taken to the Richmond jail. McNutt centered on this fact and forced the admission from him that although Mooney and his two companions had been arrested on a Saturday evening they were held in morning at 10 o'clock.

getinue and without charges, in violation of law, until Tuesday following.

During this time two private detectives, Swannstrom of the Pinkerton agency and Cantrell of the P. C. & E. Co., were permitted to interview the prisoners at all hours until midnight and subjected them to grilling and bewildering examinations.

Ruiz was shaken up considerably in his testimony which differed from that given at the preliminary examination. At the latter he testified the coil of wire with the offending caps fastened to it was wrapped up in separate packages. In his cross examination he stated they were connected up and in one package. When he was confronted with the fact that an explosion would have resulted he was considerably nonplussed to explain the situation.

Ruiz was followed on the stand by Deputy Sheriff D. H. Bailey, who followed close in corroboration of the facts testified to by the Richmond sergeant of police and then acting chief.

The trial was resumed again this Saturday evening they were held in morning at 10 o'clock.
